

CINAHL[®] Complete

CINAHL[®] Complete, the definitive research tool for nursing and allied health professionals, provides fast and easy access to top nursing and allied health journals, evidence-based care sheets, quick lessons and continuing education modules. This database contains full text for many of the most used journals found in the CINAHL[®] index.

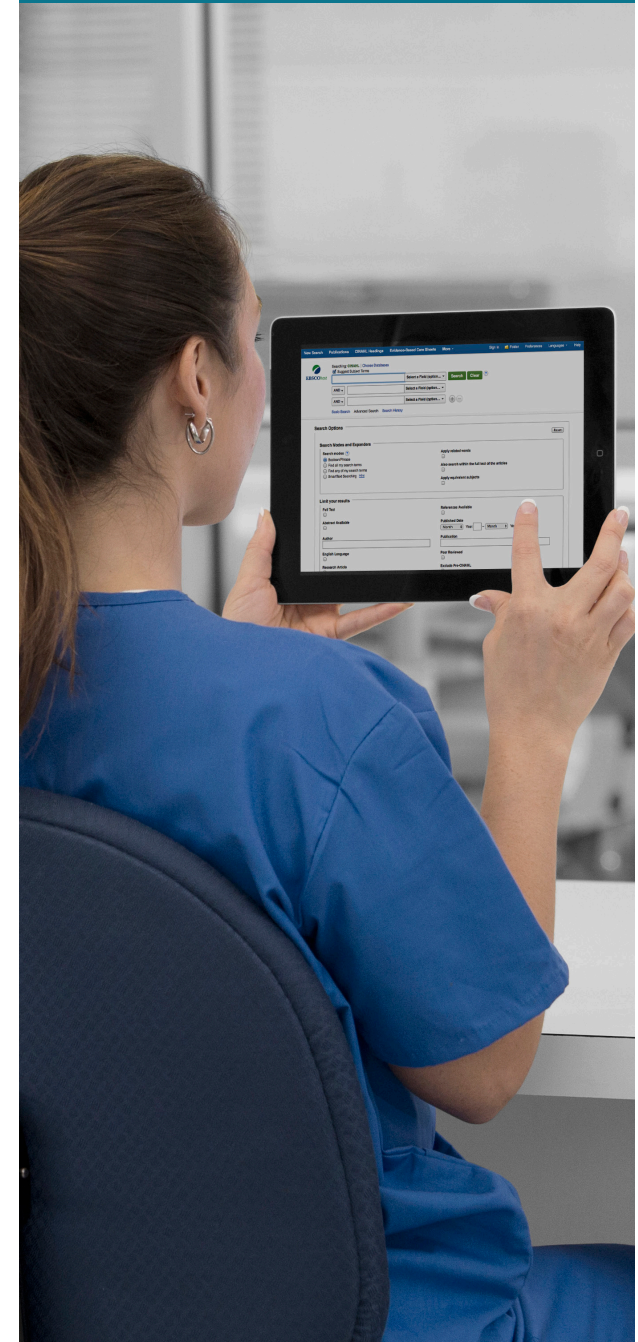

With CINAHL Complete, users can access a comprehensive scope of content covering over **50 nursing specialties** as well as allied health subjects including speech and language pathology, nutrition, physical therapy and much more.

Additional Features:

- **Provides an easy-to-use interface** with basic and advanced search features and searchable cited references
- **Subject Headings** help users effectively search and retrieve information and follow the structure of the Medical Subject Headings (MeSH) used by the National Library of Medicine
- Provides more than **460 active, full-text non-open access journals** dating back to 1962
- Includes searchable cited references for more than **1,500 journals**
- Offers more than **3,800 active indexed journals**
