

# CINAHL

CINAHL Database, an essential tool for nursing research, provides indexing of the top nursing and allied health literature available including nursing journals and publications from the National League for Nursing and the American Nurses Association. Literature covers a wide range of topics including nursing, biomedicine, alternative/complementary medicine, consumer health and 17 allied health disciplines.

In addition, CINAHL Database provides access to health care books, nursing dissertations, selected conference proceedings, standards of practice, audiovisuals and book chapters.

## Additional Features:

- **Easy-to-use interface** with basic and advanced search features and searchable cited references
- **Subject Headings** help users effectively search and retrieve information and follow the structure of the Medical Subject Headings (MeSH) used by the National Library of Medicine
- **More than 3,800** active indexed journals
- Searchable cited references for **more than 1,300 journals**
