

Nutrition Reference Center™

Give your dietitians and nutritionists instant access to the information they need, anywhere they go

The *Nutrition Reference Center* app provides:

- Condition-specific diet topics
- Food-specific topics
- Nutrition skills checklists
- Cultural competencies
- Vital patient education materials

Available for both Apple and Android devices, the *Nutrition Reference Center* app allows users to:

- Bookmark favorite topics and searches
- View recent search history
- Save notes on your favorite topics
- Print and email content right from your device
- Search within results
- And much more...

Dietitians and nutritionists are often on the go, seeing patients all over the hospital, outpatient facility or community. Now with the convenient, user-friendly *Nutrition Reference Center* mobile app, users can have fast and easy access, both online and offline, to information they need.

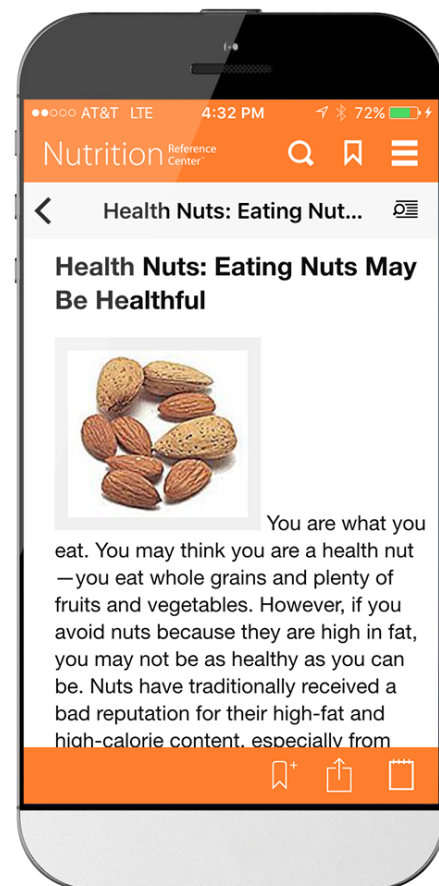

The *Nutrition Reference Center* app provides the same rich content found in *Nutrition Reference Center* with the flexibility of accessing it anytime and anywhere.
